### **§718.9 Signature requirements.**

(a) When a program authorized by this chapter or Chapter XIV of this title requires the signature of a producer; landowner; landlord; or tenant, a husband or wife may sign all such FSA or CCC documents on behalf of the other spouse, unless such other spouse has provided written notification to FSA and CCC that such action is not authorized. The notification must be provided to FSA with respect to each farm.

(b) Except a husband or wife may not sign a document on behalf of a spouse with respect to:

(1) Program document required to be executed in accordance with part 3 of this title;

FSA and CCC may, at their discretion, allow the delegations of authority by other individuals through use of the Power of Attorney or such other form as approved by the Deputy Administrator.

(d) Notwithstanding another provision of this regulation or any other FSA or CCC regulation in this title, a parent may execute documents on behalf of a minor child unless prohibited by a statute or court order.

(e) Notwithstanding any other provision in this title, an authorized agent of the Bureau of Indian Affairs (BIA) of the United States Department of Interior may sign as agent for landowners with properties affiliated with or under the management or trust of the BIA. For collection purposes, such payments will be considered as being made to the persons who are the beneficiaries of the payment or may, alternatively, be considered as an obligation of all persons

(a) Section 515(h) of the Federal Crop Insurance Act (FCIA) provides that a person who willfully and intentionally provides false or inaccurate information to the Federal Crop Insurance Corporation (FCIC) or to an approved insurance provider with respect to a policy or plan of FCIC insurance, after notice and an opportunity for a hearing on the record, will be subject to one or more of the sanctions described in section 515(h)(3). In section 515(h)(3), the FCIA specifies that in the case of a violation committed by a producer, the producer may be disqualified for a period of up to 5 years from receiving any monetary or non-monetary benefit under a number of programs. The list includes, but is not limited to, benefits under:

SOURCE: 68 FR 16176, Apr. 3, 2003, unless otherwise noted.

#### § 718.101 Measurements.

(a) Measurement services include, but are not limited to, measuring land and crop areas, quantities of farm-stored commodities, and appraising the yields of crops in the field when required for program administration purposes. The county committee shall provide measurement service if the producer requests such service and pays the cost, except that service shall not be provided to determine total acreage

or production of a crop when the request is made:

(1) After the established final reporting date for the applicable crop, unless a late filed report is accepted as provided in § 718.103;

(2) After the farm operator has furnished production evidence when required for program administration purposes except as provided in this subpart; or

(3) In connection with a late-filed report of acreage, unless there is evidence of the crop's existence in the field and use made of the crop, or the lack of the crop due to a disaster condition affecting the crop.

(b) The acreage requested to be measured by staking and referencing shall not exceed the effective farm allotment for marketing quota crops or acreage of a crop that is limited to a specific number of acres to meet any program requirement.

(c) When a producer requests, pays for, and receives written notice that measurement services have been furnished, the measured acreage shall be guaranteed to be correct and used for all program purposes for the current year even though an error is later discovered in the measurement thereof, if the producer has taken action with an economic significance based on the measurement service, and the entire crop required for the farm was measured. If the producer has not taken action with an economic significance based on the measurement service, the producer shall be notified in writing that an error was discovered and the nature and extent of such error. In such cases, the corrected acreage will be used for determining program compliance for the current year.

(d) When a measurement service reveals acreage in excess of the permitted acreage and the allowable tolerance as defined in this part, the producer must destroy the excess acreage and pay for FSA to verify destruction, in order to keep the measurement service guarantee.

#### § 718.102 Acreage reports.

(a) In order to be eligible for benefits, participants in the programs specified in paragraphs (b)(1) through (b)(6) of
